

Water for Agriculture

Information Session and Survey

The Regional District of Central Kootenay is assessing the feasibility of providing an alternative long-term water supply for agricultural needs in the Creston Valley. Agricultural producers are invited to join us for an information session in person, or to learn about the project and provide input online.

More information and a short survey can be found at engage.rdck.ca or use your phone's camera to access information using this QR code:

Information Session - Thursday November 7, 2024 from 3:00 pm to 6:00pm Creston Time

Location: Creston and District Community Complex - Creston Room

Funding for this project was received through the Agricultural Water Infrastructure Program, which is funded by the Government of BC through the Ministry of Agriculture and Food and delivered by the Investment in Agriculture Foundation of BC.
